Subject Index Volume 2

Accretion: Barbados: maturation, source rock potential and burial history within a Cenozoic accretionary complex, 96
Accretion: Transition from frontal ----- to underplating in a part of the Nankai Trough Accretionary Complex off Shikoku (SW Japan) and extensional features on the lower trench slope, 131
Acoustic facies: Sonar ----- and sediment distribution on an area of the deep ocean floor, 210
Acoustic sequences: A geophysical transect of the Adélie Margin, East Antarctica, 192
Antarctic margin: A geophysical transect of the Adélie Margin, East Antarctica, 192
Argillaceous sediments: On changes in porosity and volume burial of -----, 247
Argillaceous sediments: Volume changes during diagenesis, 241

Backarc basin: Okinawa Trough genesis: structure and evolution of a ----- developed in a continent, 111
Back-arc rifting: ----- in the Okinawa Trough, 222
Barbados: ----- maturation, source rock potential and burial history within a Cenozoic accretionary complex, 96

Carbonate diagenesis: Reef exploration in the East Sengkang Basin, Sulawesi, Indonesia, 142
Central Trough: On the structural evolution of the ----- in the Norwegian and Danish sectors of the North Sea, 298
Citinozoan: Reflected light microscopy of ----- fragments, 72
Continental margin: Comparison of marine gas hydrates in sediments of an active and passive -----, 65
Continental margin: Tectonic development of the Mid-Norway -----, 2
Continental Slope and Rise: Slumping and shallow faulting related to the presence of salt on the ----- off North Carolina, 260

Diagenesis: Barbados; maturation, source rock potential and burial history within a Cenozoic accretionary complex, 96
Diagenesis: Volume changes during -----, 241

East Sengkang Basin: Reef exploration in the -----, Sulawesi, Indonesia, 142
Edda Field Reservoir: Geology of the -----, 327

Eustatic changes: Geohistory analysis of Bombay High region, 350
Exploration: UK onshore oil -----, 1930 - 1964, 56
Extensional tectonics: Transition from frontal accretion to underplating in a part of the Nankai Trough Accretionary Complex off Shinkoku (SW Japan) and extensional features of the lower trench slope, 131

Facies recognition: ----- of some Tertiary coals applied to prediction of oil source rock occurrence, 288

Gas exploration: Reef exploration in the East Sengkang Basin, Sulawesi, Indonesia, 142
Gas hydrates: Comparison of marine ----- in sediments of an active and passive continental margin, 65
Gas seepages: Characteristics of two natural ----- in the North Sea, 319
Geochemistry: Comparison of marine gas hydrates in sediments of an active and passive continental margin, 65
Geochemistry: Preliminary organic petrography of Palaeozic rocks from the Grand Banks, Newfoundland, 254
Geohistory analysis: ----- of Bombay High region, 350
Geologic structure and neotectonics of the North African Continental Margin south of Sicily, 156
Geology of the Edda Field Reservoir, 327
Grand Banks: Preliminary organic petrography of Palaeozoic rocks from the -----, Newfoundland, 254
Great Oolite Group: Stratigraphy and sedimentology of the ----- in the Humbly Grove Oilfield, Hampshire, 44

Humbly Grove Oilfield: Stratigraphy and sedimentology of the Great Oolite Group in the -----, Hampshire, 44

Madeira abyssal plain: Sonar acoustic facies and sediment distribution on an area of the deep ocean floor, 210
Magnetic anomalies: A geophysical transect of the Adélie Margin, East Antarctica, 192
Maturity: Reflected light microscopy of chitinozoan fragments, 72
Microscopy: Reflected light ----- of chitinozoan fragments, 72

Nankai Trough Accretionary Complex: Transition from frontal accretion to underplating in a part of the ----- off Shikoku (SW Japan) and extensional features on the lower trench slope, 131
North African Continental Margin: Geologic structure and neotectonics of the ----- south of Sicily, 156
North Sea: Characteristics of two natural gas seepages in the -----, 319
Norway: The Valhall Field: a geological overview, 23

Oil: The Valhall Field: a geological overview, 23
Oil: UK onshore ----- exploration, 1930 - 1964, 56
Oil source rock: Facies recognition of some Tertiary coals applied to prediction of ----- occurrence, 288
Okinawa Trough: ----- genesis: structure and evolution of a backarc basin developed in a continent, 111
Okinawa Trough: Back-arc rifting in the -----, 222
Onshore: UK ----- oil exploration, 1930 - 1963, 56
Organic matter: ----- size fraction relationships for recent sediments from the Orinoco Delta, Venezuela, 202
Organic petrography: Preliminary ----- of Palaeozoic rocks from the Grand Banks, Newfoundland, 254
Orinoco Delta: Organic matter: size fraction relationships for recent sediments from the -----, Venezuela, 202

Plate tectonics: Geologic structure and neotectonics of the North African Continental Margin south of Sicily, 156
Pockmarks: Characteristics of two natural gas seepages in the North Sea, 319
Porosity: Volume changes during diagenesis, 241
Porosity: On changes in ----- and volume during burial on argillaceous sediments, 247

Reef exploration: ----- in the East Sengkang Basin, Sulawesi, Indonesia, 142
Reflectance: Reflected light microscopy of chitinozoan fragments, 72
Rifting: Okinawa Trough genesis: structure and evolution of a backarc basin developed in a continent, 111
Rifting: Tectonic development of the Mid-Norway continental margin, 2

Saharan continental rise: Sonar acoustic facies and sediment distribution on an area of the deep ocean floor, 210
Salt diapirs: Slumping and shallow faulting related to the presence of salt on the Continental Slope and Rise off North Carolina, 260

Sediment distribution: Sonar acoustic facies and ----- on an area of the deep ocean floor, 210
Sediment fractions: Organic matter: size fraction relationships for recent sediments from the Orinoco Delta, Venezuela, 202
Sedimentation: Tectonic development of the Mid-Norway continental margin, 2
Sedimentology: Stratigraphy and ----- of the Great Oolite Group in the Humbly Grove Oilfield, Hampshire, 44
Sediments: Comparison of marine gas hydrates in ----- of an active and passive continental margin, 65
Seismic reflection: Geologic structure and neotectonics of the North African Continental Margin south of Sicily, 156
Shallow faulting: Sumping and ----- related to the presence of salt on the Continental Slope and Rise off North Carolina, 260
Slumping: ----- and shallow faulting related to the presence of salt on the Continental Slope and Rise off North Carolina, 260
Stratigraphy: ----- and sedimentology of the Great Oolite Group in the Humbly Grove Oilfield, Hampshire, 44
Structural evolution: On the ----- of the Central Trough in the Norwegian and Danish sectors of the North Sea, 298
Subduction: Transition from frontal accretion to underplating in a part of the Nankai Trough Accretionary Complex off Shikoku (SW Japan) and extensional features on the lower trench slope, 131

Tectonics: On the structural evolution of the Central Trough in the Norwegian and Danish sectors of the North Sea, 298
Tectonics: Tectonic development of the Mid-Norway continental margin, 2
Tertiary coals: Facies recognition of some ----- applied tp prediction of oil source occurrence, 288
Thermo-tectonic subsidence: Geohistory analysis of Bombay High region, 350
Thrust tectonics: Transition from frontal accretion to underplating in a part of the Nankai Trough Accretionary Complex off Shikoku (SW Japan) and extensional features on the lower trench slope, 131

UK: ----- onshore oil exploration, 1930 - 1964, 56
Underplating: Transition from frontal accretion to underplating in a part of the Nankai Trough Accretionary Complex off Shikoku (SW Japan) and extensional features on the lower trench slope, 131

Valhall Field: The -----: a geological overview, 23
Volume changes: ----- during diagenesis, 241
Volume changes: On changes in porosity and volume during burial of argillaceous sediments, 247

Calendar

14–16 April 1986
Underwater Technology Conference
Bergen, Norway
Contact: Gerd Jaeger, Conference Manager, UTC-86, c/o Norwegian Petroleum Society, P.O. Box 95, N-5061 Kokstad, Norway

27–29 April 1986
Southwest Section AAPG
Mescalero, USA
Contact: Eddie David, David Petroleum Corp. 731 Petroleum Bldg, Roswell, New Mexico 88201, USA

30 April – 2 May 1986
Marine Data Systems International Symposium
New Orleans, USA
Contact: Ray Canada, National Data Buoy Centre, Building 1100, NSTL, Mississippi 39529, USA

3–6 June 1986
48th Meeting and Technical Exhibition European Association of Exploration Geophysicists
Ostend, Belgium
Contact: E. van der Gaag, European Association of Exploration Geophysicists, Wassenaarseweg 22, 2596 CH The Hague, The Netherlands

15–18 June 1986
AAPG Annual Meeting
Atlanta, USA
Contact: Howard Cramer, Emory University, Department of Geology, Atlanta, Georgia 30322, USA

7–11 July 1986
Geocongress 86
Johannesburg, S. Africa
Contact: C. F. Vermaak, Congress Director, The Symposium Secretariat S339, CSIR, P.O. Box 395, Pretoria 0001, Republic of South Africa

17–22 August 1986
Circum-Pacific Energy and Mineral Resources Conference
Singapore
Contact: AAPG, Box 979, Tulsa, OK 74101, USA

24–30 August 1986
12th International Sedimentological Congress
Canberra, Australia
12th International Sedimentological Congress, ACTS, GPO Box 1929, Canberra, ACT 2601, Australia

14–19 September 1986
UK Oceanography 86
University of Southampton, England
Contact: Challenger Society, Dunstaffnage Marine Research Laboratory, P.O. Box 3, Oban, Argyll, Scotland, UK

27–30 October 1986
3rd Conference on Petroleum Geology of NW Europe
London, UK
Contact: Geological Society of London, Burlington House, Piccadilly, London W1, UK

16–18 December 1986
5th Biennial International Symposium Hydro 86
Southampton, UK
Contact: The Organizing Committee, Hydro 86, The Hydrographic Society, North East London Polytechnic, Longbridge Road, Dagenham, Essex RM8 2AS, UK
